

Memory Garden: Your Life Journey

Overview

Memory Garden is a personal memory and life journey app that transforms real-life experiences into a growing digital garden.

Instead of tracking tasks, habits, or productivity goals, Memory Garden encourages users to capture meaningful moments, celebrate milestones, and watch their personal garden flourish over time.

Every memory becomes a seed.

Every experience helps the garden grow.

Every journey creates a unique story.

Core Features

Memory Capture

Create and save life memories in seconds.

Each memory can include:

- Title
- Description
- Photos
- Date
- Category
- Tags

Optional:

- Location
- Mood
- Favorite memory marker

Examples:

- First trip to Ha Long Bay
 - Coffee date with a loved one
 - Graduation day
 - Watching a favorite concert
 - Completing a personal goal
-

Living Garden System

Every saved memory plants a seed in the user's garden.

Over time, memories evolve through multiple growth stages:

- Seed
- Sprout
- Young Plant
- Blooming Flower
- Rare Plant

The more meaningful experiences users record, the more vibrant and unique their garden becomes.

Life Journey Categories

Organize memories into beautiful life collections.

Adventure

- Travel
- Beaches
- Mountains
- Camping
- Road trips

Food & Drink

- Cafés
- Restaurants
- New foods

Vision

Memory Garden is not about productivity.

It is not about tasks.

It is not about streaks.

It is about preserving moments, celebrating experiences, and watching a personal life story bloom into something beautiful over time.

Grow your life, one memory at a time.
